

surprising aspect that I learned was that there are so many advantages of TBL. First of all, TBL allows students to be free of language control because they use all their language resources rather than just practicing one preselected item. Furthermore, a natural context is developed from the students' experiences with the language that is personalized and relevant to them. Another essential advantage is the more varied exposure to language with TBL since they will be exposed to a whole range of lexical phrases, collocations and patterns as well as language forms. An important aspect of TBL is that the language explored arises from the students' needs. It is no more the decision made by the teacher or the coursebook. Lastly, the most important advantage in my opinion is the strong communicative approach because students spend a lot of time communicating. I am sure that TBL is enjoyable and motivating for students as well as for teachers.
