**The Nagorno-Karabakh deadlock** Azer Babayev, Bruno Schoch, Hans-Joachim Spanger, 2019-05-02 The book examines all relevant models which have been employed in settling ethno-territorial conflicts since the time of the League of Nations. Eight of these models have been studied in-depth. The aim of this analysis is to gain expertise and insights that could prove relevant to resolving the conflict in Nagorno-Karabakh. This potential is evaluated in the closing chapters of the volume where novel ideas on how to apply the lessons of these cases to the conflict in Nagorno-Karabakh are presented. This conflict carries many features typical of ethno-territorial conflicts in present and past times: it is neither unique, nor does its settlement depend on others than the parties to the conflict. Rather it is - as in all other cases - entrenched historical narratives and enemy images which lead to zero-sum calculations and can conceivably only be overcome in a gradual process. Content Part I Nagorno-Karabakh and ethno-territorial conflict settlement Part II Case studies of ethno-territorial conflict settlement: Åland, Bosnia and Herzegovina, Kosovo, South Tyrol, Trieste, Cyprus, Northern Ireland, Quebec. Part III Results and conclusions: A way out for Nagorno-Karabakh The Editors Dr Azer Babayev is Assistant Professor of Political Science at ADA University, Baku. Dr Bruno Schoch is Associated Researcher at PRIF (Peace Research Institute Frankfurt), Frankfurt/Main. Dr Hans-Joachim Spanger is Head of the Dissemination Division at PRIF (Peace Research Institute Frankfurt), Frankfurt/Main.

**Banning the Bomb, Smashing the Patriarchy** Ray Acheson, 2021-06-25 Banning the Bomb, Smashing the Patriarchy offers a look inside the antinuclear movement and its recent successful campaign to ban the bomb. From scrappy organizing to winning the Nobel Peace Prize in 2017 and achieving a landmark UN treaty banning nuclear weapons, this book narrates the journey of the International Campaign to Abolish Nuclear Weapons (ICAN) and developments in feminist disarmament activism. Acheson explains the process through which diplomats, activists, and nuclear survivors worked together to elevate the horrific humanitarian and environmental impacts of nuclear weapons, develop new international law categorically prohibiting the bomb, challenge the nuclear orthodoxy, and strengthen norms for disarmament and peace. Told from the perspective of a queer feminist antimilitarist organizer who was involved from the start of the process through to the treaty's adoption, the book utilizes interviews with dozens of participants, as well as critical theoretical perspectives about transnational advocacy networks, discourse change, and intersectional feminist action. It is meant to provide useful insights

for anyone trying to make change amidst structures of power and politics.

Public Administration in the Middle East and North Africa Shahjahan Bhuiyan,2023-06-30 This book examines the status of public administration in eight countries—the United Arab Emirates (UAE), Turkey, Lebanon, Jordan, Morocco, Tunisia, Sudan, and Libya—in the Middle East and North Africa (MENA). This volume explores the issues, perspectives, traditions, and cultures that shape the operation of public administration in the region. This book also offers critical narratives on how the region's governments manage the state and statecrafts regarding their governance design. It reflects on the multiplicity of public administration structures, functions, processes, and procedures, as well as reform schemes, which are critical in achieving good governance to continuously improve the human condition in the MENA region. Public Administration in the Middle East and North Africa will be of interest to scholars, practitioners, and students concerned with the ways in which technological change, knowledge accumulation, and dissemination can increase a state's effective governance capacity.

Foreword by B. Guy Peters, University of Pittsburgh is freely available to download on the Routledge website.

**Freedom of Information Law and Good Governance** Emmanuel Saffa Abdulai,2021-10-15 This book argues that Sierra Leone's ten-year civil conflict demonstrates the criticality of freedom of information (FOI) as a facet of good governance where corruption thrives, spanning both public and private sectors, if Sierra Leone's continued security and stability are to be ensured. It argues that it was the absence of an anti-corruption tool like FOI and its attendants, transparency, and accountability, in governance generally, and in the area of the extractive industry in particular, that led to other social phenomena which directly sparked the war. It proffers that for the continued consolidation of peace, security, stability and development in Sierra Leone, transparency and accountability must be ensured by protecting and implementing the demand driven anti-graft FOI. Straddling the disciplines of law, political science, public policy, and history, the book's major premise is that it was the absence of FOI in the area of governance and the extractive industry, which enabled politicians, civil servants and the politically connected to ransom and exploit Sierra Leone's mineral resources for their own profit with impunity, a state of affairs which led to underdevelopment, state collapse and an embittered civil populace especially the youth. The book postulates that as such any attempt to ensure long-term peace in Sierra Leone, should seek to avoid replicating the conditions that gave rise to that gruesome conflict- elites expropriation of national resources through endemic graft. The book proposes the comprehensive and effective implementation of the Right to Information Act 2013.

*Violence on the Margins* Timothy Raeymaekers,2013-08-27 This survey of various African and Asian conflicts examines people's experiences on territorial borders and the ways they affect political configurations. By focusing on individuals' routines and daily life, these contributions treat borderland dynamics as actual political units with their own actions and

outcomes.

*Malady of the Mind* Jeffrey A. Lieberman, 2024-04-23 This brilliant portrait of schizophrenia—the most malignant and least understood mental illness—by renowned psychiatrist Jeffrey Lieberman, Chair of Columbia's legendary Psychiatry department, interweaves cultural and scientific history with dramatic patient portraits and clinical experiences to impart a revolutionary message of hope: that for the first time in human history, schizophrenia can not just be effectively treated, but even prevented. Of the many myths and misconceptions that have historically obscured our understanding of schizophrenia, the most pernicious is that there is no effective treatment or cure. The reality couldn't be more different: the truth is that today's treatments have the potential to be game-changing—and often lifesaving. In this rigorously researched, deeply compelling biography of schizophrenia, Dr. Jeffrey Lieberman draws on his four-decade career to tell the story of the past, present, and future of this historically dreaded, often disabling illness. From his vantage point at the pinnacle of academic psychiatry, informed by extensive research experience and clinical care of thousands of patients, Dr. Lieberman describes how the complexity of the brain, the checkered history of psychiatric medicine, and centuries of stigma combined with misguided legislation and health care policies have impeded scientific and clinical progress. And yet, there is hope: by offering evidence-based treatments that combine medication with psychosocial services, doctors are now able to effectively treat schizophrenia. Even more auspiciously, early detection and intervention before the onset of psychotic symptoms can—thanks to decades of scientific work—not only suppress symptoms but also effectively prevent the outbreak of this disorder. A must-read for fans of psychological histories and anyone whose life has been affected by schizophrenia, this revelatory work offers a comprehensive scientific portrait, crucial insights, and, most importantly, hope for those afflicted—

**Legal Normativity in the Resolution of Internal Armed Conflict** Philipp Kastner, 2015-08-07 Drawing on the texts and historical processes of peace resolutions, this book illustrates how conflict resolution constructs legal norms.

**Gender and the Governance of Terrorism and Violent Extremism** Ann-Kathrin Rothermel, Laura J. Shepherd, 2023-05-22 This book brings together a variety of innovative perspectives on the inclusion of gender in the governance of (counter-)terrorism and violent extremism. Several global governance initiatives launched in recent years have explicitly sought to integrate concern for gender equality and gendered harms into efforts to counter terrorism and violent extremism (CT/CVE). As a result, commitments to gender-sensitivity and gender equality in international and regional CT/CVE initiatives, in national action plans and at the level of civil society programming, have become a common aspect of the multilevel governance of terrorism and violent extremism. In light of these developments, there is a need for more systematic analysis of how concerns about gender are being incorporated in the governance of (counter-)terrorism and violent extremism and how it has affected (gendered) practices and power relations in counterterrorism policy-making and implementation. Ranging from the processes of global and regional integration of gender into the governance of terrorism,

via the impact of the shift on government responses to the return of foreign fighters, to state and civil society-led CVE programming and academic discussions, the essays engage with the origins and dynamics behind recent shifts which bring gender to the forefront of the governance of terrorism. This book will be of great value to researchers and scholars interested in gender, governance and terrorism. The chapters in this book were originally published in *Critical Studies on Terrorism*.

**Further Consideration of a New Liquidity Instrument for Market Access Countries - Design Issues** International Monetary Fund. Policy Development and Review Dept., International Monetary Fund. Strategy, Policy, & Review Department, 2007-02-13 This paper focuses on a specific set of issues -- qualification criteria, monitoring structure, access levels and terms, links to other Fund facilities, and links to the private sector. This paper is a complement and follow-up to an earlier paper, which itself considered the broader issues involved in creating a new instrument. The paper does not put forward a concrete proposal to Directors, but seeks to achieve a further convergence of views on these key issues.

**Why Honor Matters** Tamler Sommers, 2018-05-08 A controversial call to put honor at the center of morality To the modern mind, the idea of honor is outdated, sexist, and barbaric. It evokes Hamilton and Burr and pistols at dawn, not visions of a well-organized society. But for philosopher Tamler Sommers, a sense of honor is essential to living moral lives. In *Why Honor Matters*, Sommers argues that our collective rejection of honor has come at great cost. Reliant only on Enlightenment liberalism, the United States has become the home of the cowardly, the shameless, the selfish, and the alienated. Properly channeled, honor encourages virtues like courage, integrity, and solidarity, and gives a sense of living for something larger than oneself. Sommers shows how honor can help us address some of society's most challenging problems, including education, policing, and mass incarceration. Counterintuitive and provocative, *Why Honor Matters* makes a convincing case for honor as a cornerstone of our modern society.

In Harm's Way Kathleen Kern,2009-01-01 In 1984 Evangelicals for Social Action founder Ron Sider posed the questions, What would happen if we in the Christian church developed a new nonviolent peacekeeping force ready to move into violent conflicts and stand peacefully between warring parties? . . . Everyone assumes that for the sake of peace it is moral and just for soldiers to get killed by the hundreds of thousands, even millions. Do we not have as much courage and faith as soldiers? Christian Peacemaker Teams (CPT) has been trying to answer those questions since 1986. CPT has responded to invitations from grassroots organizers on five continents who are using nonviolent strategies to confront systemic oppression. This book provides a glimpse into the mistakes and successes, the triumphs and tragedies, that teams have shared in with local co-workers in various nations. It also continues to pose the question, What would happen if CPT's efforts were multiplied by millions of Christians with a radical commitment to Jesus's nonviolent gospel?

**The British in Argentina** David Rock,2018-11-29 Drawing on largely unexplored nineteenth- and twentieth-century sources, this book offers an in-depth study of Britain's presence in Argentina. Its subjects include the nineteenth-century rise of British trade, merchants and explorers, of investment and railways, and of British imperialism. Spanning the period from the Napoleonic Wars until the end of the twentieth century, it provides a comprehensive history of the unique British community in Argentina. Later sections examine the decline of British influence in Argentina from World War I into the early 1950s. Finally, the book traces links between British multinationals and the political breakdown in Argentina of the 1970s

and early 1980s, leading into dictatorship and the Falklands War. Combining economic, social and political history, this extensive volume offers new insights into both the historical development of Argentina and of British interests overseas.

The Theory of Crisis and the Great Recession in Spain Juan Pablo Mateo Tomé, 2019-11-08 This book has a dual purpose. First, it analyses the concept of economic crises within economic theory, showing the various theoretical foundations and controversies amongst different schools of economic thought. Second, it presents an empirical analysis of the Great Recession in Spain, addressing the growth period of 1995 to 2007-08, the subsequent depression until 2013-14 and the recovery that followed. It also shows the way in which the inner contradictions of capital manifests itself in an European peripheral economy under a real estate bubble, emphasizing the role of the Spanish economy in European capitalism. This theoretical and empirical heterodox approach will be of interest to students and scholars in political economy, and those with an interest in the Eurozone.

*Juvenicidio* José Manuel Valenzuela (coord.), 2015-10-15 El 26 de septiembre de 2014, estudiantes de Magisterio de Ayotzinapa, en Iguala - Guerrero, tomaron autocares con el fin de trasladarse a la Ciudad de México y participar en la marcha conmemorativa de la matanza de estudiantes del 2 de octubre de 1968, pero fueron interceptados por la policía y el ejército. Los jóvenes fueron secuestrados y entregados al narcogrupo Guerreros Unidos. Los sucesos de Ayotzinapa se inscriben en un marco definido por el Juvenicidio, proceso que implica una condición precaria persistente que ha costado la vida de decenas de miles de jóvenes en México, a cientos de miles en América Latina y se ha extendido también por Europa. El Juvenicidio posee varios elementos constitutivos que incluyen precarización, pobreza, desigualdad, estigmatización y estereotipamiento de conductas juveniles (de manera especial de algunos grupos y sectores juveniles) y la banalización del mal. El orden dominante ha ampliado las condiciones de precariedad, vulnerabilidad e indefensión de estos grupos usando ordenamientos clasistas, racistas, sexistas, homofóbicos, y un orden prohibicionista que, con el pretexto de combatir al llamado crimen organizado, ha funcionado como estrategia que limita los espacios sociales de libertad. El libro pone frente al espejo el caso de Ayotzinapa con otras formas de juvenicidio acaecidas en países latinoamericanos como Argentina, Brasil, Colombia y Centroamérica, así como con nuevas formas de juvenicidio moral emergentes en Europa.
