*Technologies for Children* Marilyn Flear, 2023-07-31 *Technologies for Children* is a comprehensive guide to teaching design and digital technologies to children from birth to 12 years. Aligned with the Early Years Learning Framework and the Australian Curriculum: Technologies, this book provides practical ideas for teaching infants, toddlers, pre-schoolers and primary-aged children. The third edition includes expanded content on teaching digital technologies, with a new chapter on computational thinking. Key topics covered include food and fibre production, engineering principles and systems, and computational thinking. The content goes beyond discussing the curriculum to consider technology pedagogies, planning, assessment and evaluation. Case studies drawn from Australian primary classrooms and early childhood centres demonstrate the transition from theory to practice. Each chapter is supported by pedagogical reflections, research activities and spotlights, as well as extensive online student resources. Written by Marilyn Flear, this book presents innovative, engaging and student-centred approaches to integrating technologies in the classroom.

**From Handwriting to Footprinting** Anne Baillot, 2023-07-06 How do we currently preserve and access texts, and will our current methods be sustainable in the future? In *From Handwriting to Footprinting*, Anne Baillot seeks to answer this question by offering a detailed analysis of the methods that enable access to textual materials, in particular, access to books of literary significance. Baillot marshals her considerable expertise in the field of digital humanities to establish a philological overview of the changing boundaries of 'access' to literary heritage over centuries, deconstructing the western tradition of archiving and how it has led to current digital dissemination practices. Rigorously examining the negative environmental impact of digital publishing and archiving, Baillot proposes an alternative model of preservation and dissemination which reconciles fundamental traditions with the values of social responsibility and sustainability in an era of climate crisis. Integrating historical, archival and environmental perspectives, *From Handwriting to Footprinting* illuminates the impact that digitisation has had on the dissemination and preservation of textual heritage and reflects on what its future may hold. It is invaluable reading for anyone interested in textual history from a linguistic or philological perspective, as well as those working on publishing, archival and infrastructure projects that require the storing and long-term preservation of texts, or who want to know how to develop a more mindful attachment to digitised material.

Empirical Research and Writing Leanne C. Powner,2014-11-04 Students can easily misstep when they first begin to do research. Leanne C. Powner's new title *Empirical Research and Writing: A Student's Practical Guide* provides valuable advice and guidance on conducting and writing about empirical research. Chapter by chapter, students are guided through the key steps in the research process. Written in a lively and engaging manner and with a dose of humor, this practical text shows students exactly how to choose a research topic, conduct a literature review, make research design decisions, collect and analyze data, and then write up and present the results. The book's approachable style and just-in-time information delivery make it a text students will want to read, and its wide-ranging and surprisingly sophisticated coverage will make it an important resource for their later coursework.

**The Environment** Chris C. Park,2001 The second edition of this fully integrated introductory text for courses in environmental studies and physical geography builds on the resounding success of the first edition, providing a comprehensive account of modern environmental issues and the physical and socio-economic framework in which they are set. It explains the principles and applications of the different parts of the Earth's system: the lithosphere, atmosphere, hydrosphere and the biosphere, and explains the interrelationships within and between these systems. It explores the present environmental crisis, examines how the planet Earth fits into the wider universe and explores human-environment interactions.

Boosting Learning in the Primary Classroom Sheilagh Blyth,2015-04-17 *Boosting Learning in the Primary Classroom* is your one-stop practical guide to understanding the physical development of children and how this affects their ability to learn. Not only does it explain the reasons behind the theories but provides over 75 practical tips that really work in the classroom. The book is based on a successful five-step approach to help children acquire the skills needed to manage at school and daily life. It works by being able to pinpoint a problem, assists others in recognising the impact that difficulty is having to the child and then provides strategies to develop that child's specific skills. Using the latest medical research and established occupational therapy techniques to obtain great results, this approach provides teachers with the tools to use different knowledge and strategies to engage children in the learning process. Key ideas explored include: Exploring the reasons for poor handwriting Increasing Disability Awareness The link between body posture and concentration Dyspraxia in a school setting Play develops learning Understanding sensory behaviour By providing teachers with an understanding of

physical child development and the impact this has in the classroom, this book demonstrates how teachers can use this knowledge to boost the learning of their primary-aged children. It encourages teachers to identify improvements in the child's progress of not just educational learning targets but also in physical motor development, using real life case studies, latest theory and tried & tested occupational therapy methods to help every child improve.

*The New IPA* Scott Janish,2019-05-30 In *The NEW IPA*, Scott Janish scours through hundreds of academic studies, collecting and translating the relevant hop science into one easily digestible book. Through experiments, lab tests, discussions with researchers, and interviews with renowned and award-winning commercial brewers, the *NEW IPA* will get you to think differently about brewing processes and ingredient selection that define today's hop-forward beers. It's a must-have book for those that love to brew hoppy hazy beer and a scientific guide for those who want to push the limits of hop flavor and aroma!

**Population – Development – Environment** J. Bagueant,Wolfgang Lutz,C. Prinz,F.L. Toth,A.B. Wils,2013-06-29 Because the number of options is often limited, small island states tend to find it uncommonly difficult to strike a balance between population, environment, and development. Relatively high population density and small land areas, without much in the way of natural resources, do not provide the best of circumstances for improving the living conditions of the population, especially a fast-growing one. The result is often stunted economic development and environmental stress both on land and offshore. The developments in the island state of Mauritius over the past 30 years, however, can serve as an inspiration and illustration of how extremely adverse conditions can be overcome. In the early 1960s Mauritius was trying to cope with rapid population growth, extreme poverty, and grim economic prospects. Population density was 324 inhabitants per km<sup>2</sup>, total fertility was 5.7, and GNP per capita was less than \$200. In 1990 the situation in Mauritius was radically different. Although population density had increased to 527 inhabitants per km<sup>2</sup>, total fertility had dropped to 2.0, and GNP per capita had increased to \$2,310. Economic stagnation had been replaced by steady growth and full employment, and environmental problems were being addressed as issues of high priority.

*Business Ethics and Corporate Governance* K Viyyanna Rao,G Naga Raju,2017-10-31 The present volume covers a wide spectrum of issues from Governance to Ethics. What contributes to the survival of a business is its sincerity to the society. Keeping this as the core of the discussion, the book covers the topics including governance practices in India and abroad, the role of board of directors, independent directors, audit committees and auditors. The book also contains discussion on the role of SEBI, stock exchanges and the Government of India. An analysis of the provisions incorporated in the Companies Act, 2013 is unique. Another major part of discussion pertains to the precepts and practice of Corporate Social Responsibility. Presentation of Live Cases drawn from the contemporary developments is another highlight of the book. Salient Features: Ideas and tools for implementation of ethics with the help of qualitative and quantitative analysis and interpretation.

Corporate governance reforms and best practices for a global perspective and business ethics from behavioural and applied aspects. Maximum flexibility in presenting the amount and order of materials on corporate governance and business ethics. Live and practical examples in the form of case studies/exhibits at relevant places.

**Activist Citizenship and the LGBT Movement in Serbia** Robert Rhodes-Kubiak, 2015-09-01 Activist Citizenship and the LGBT Movement in Serbia explores ways of understanding activist movements through an exploration of the theoretical concept of activist citizenship which draws attention to critical engagements with, and reclamations of, citizenship.

The Religion Toolkit John Morreall, Tamara Sonn, 2024-06-13 THE RELIGION TOOLKIT A comprehensive survey of the study of religion worldwide, from ancient indigenous traditions to today's religious nationalism. "This is an excellent book that is a good, comprehensive overview of the history of religions and the ways of studying religion within Religious Studies... it really brings religions to life for the reader." —Gavin Flood, Professor of Hindu Studies and Comparative Religion, Oxford University "The authors provide a clear, first-rate introduction to the study of religions, origins, leading scholars and their theories and beliefs.... This is by far the best introductory volume I am aware of both in terms of substance, clarity, and insights." — John L. Esposito, Distinguished University Professor, Georgetown University, and Past President of the American Academy of Religion The Religion Toolkit: Understanding Religion in the World Today is a clear and comprehensive introduction to the academic study of religions, providing readers an introduction to the history and theories of Religious Studies, a survey of global religious traditions, and an overview of religion in the public sphere today. Discusses theory and methodology in religion, including the disciplines of anthropology, psychology, philosophy, biblical studies, and theology Describes the early development of religion, with overviews of traditions around the world, including Judaism, Christianity, Islam, Baha'i, Hinduism, Zoroastrianism, Jainism, Buddhism, Sikhism, Daoism, Confucianism, and Shinto Covers traditions not commonly addressed in introductory textbooks, such as Santeria, Vodou, Tengrism, and indigenous traditions of the Americas Examines recent developments and contemporary issues such as secularization, bioethics, and the rise of religious nationalism Includes access to a companion website with discussion questions, additional material, and helpful primary and secondary sources Providing the knowledge and tools required to explore and understand the nature and roles of religion, The Religion Toolkit: Understanding Religion in the World Today, Second Edition is an excellent introductory textbook for undergraduate and graduate courses in Religious Studies, History of Religion, Religions of the World, and Theory and Method in the Study of Religion, as well as a valuable resource for general readers interested in the role of religion in the world today.

Once a Marine Nick Popaditch, Mike Steere, 2008-10-01 The Silver Star-awarded marine chronicles his service in Iraq in this “transcendent memoir of military service and its personal consequences” (Ralph Peters, Lt. Col., ret., author of Looking For Trouble). In April, 2003, an AP photographer captured a striking image seen around the world of Gunny Sergeant Nick Popaditch smoking a victory cigar in his tank, the haunting statue of Saddam Hussein hovering in the background. Though immortalized in that moment as “The Cigar Marine,” Popaditch’s fighting was far from over. The following year, he fought heroically in the battle for Fallujah and suffered grievous head wounds that left him legally blind and partially deaf. But he faced the toughest fight of his life when he returned home: the battle to remain the man and Marine he was. At first, Nick fights to get back to where he was in Iraq—in the cupola of an M1A1 main battle tank, leading Marines in combat. As the seriousness and permanence of his disabilities become more evident, Nick fights to remain in the Corps in any capacity and help his brothers in arms. Then, following a medical retirement, he battles for rightful recognition and compensation for his disabilities. Throughout his harrowing ordeal, Nick fights to maintain his honor and loyalty, waging all these battles the same way—the Marine way—because anything less would be a betrayal of all he holds dear.
