## Popular Mechanics *2001-10*

author dori oneill writes her honest and messy life memoir it includes her 46 year nursing career her background and childhood took her through murder to marriage mothering to medical drama missions to mayhem midlife changes to mentors more her journey in life gave her bigger adventures than she ever dreamed of and more life experience than she ever thought was possible she believes there is much more ahead

## Hybrid Vehicles *2008-09-19*

at the recent un climate change conferences in copenhagen cancun and durban the developed nations promised hundreds of billions of dollars in financial aid to help developing countries overcome global climate change dangers the developed nations will need to spend many more billions to limit their own greenhouse gas pollution the main cause of global warming and climate change will all this money and effort be wasted this book argues that nearly all of the world s climate policy makers and expert advisors have been making tragic mistakes that ensure the failures of climate change mitigation attempts the great majority of climate change programs from american congressional bills to cap and trade economic incentive schemes to the kyoto protocol and other international treaties rely on greenhouse gas emissions reduction targets that will prove oc too little too lateco by deferring strict pollution controls too far into the future the inadequate emissions reduction measures also will not be able to bridge the gap between the highest priorities of developed and developing nations vast discharges of greenhouse gases authorized by weak emissions reduction programs in the next several decades virtually guarantee that the cumulative concentration of greenhouse gases in the atmosphere will keep increasing while climate change continues to grow worse rather than adopting ineffectual emissions reduction programs that cannot limit the cumulative concentration of greenhouse gases in the air this book proposes a shift to a oc cleanoco technology replacement strategy that could support current lifestyles and expanding economic development without further damaging our climate the only way to reduce the greenhouse gas levels in the atmosphere enough to decrease climate change hazards is to replace large pollution sources as rapidly as feasible in as many industrial sectors and geographic regions as possible with oc cleanoco alternative technologies processes and methods
