Office 2001 for Macintosh: The Missing Manual

2001-05-03

to the surprise of most mac fans the number one bestselling macintosh software is microsoft office for the macintosh it s by far the most popular macintosh software and the first software purchase a new mac user is likely to make and for the first time office 2001 comes without a single page of printed instructions the packaging is a five inch square clear plastic case housing the cd rom and little else fortunately pogue press o reilly is once again ready to embrace the befuddled and overwhelmed with office 2001 for macintosh the missing manual it tackles each of the primary office applications with depth humor and clarity and provides relief for the hapless mac user who d rather read professionally written printed instructions than hunt through a maze of personality free help screens the book is structured to help the beginner as well as the seasoned user part one provides an overview of word from what s new to basic word processing to document design to advanced word processing with in depth details on creating pages and performing mail merges using word part two covers the new palm syncable calendar in entourage including all aspects of email how to best use the calendar and address book and crucial information on the palm hotsync part three explains all the finer points of excel including microsoft s exciting new list manager specifically designed for creating and manipulating lists without the prerequisite of learning spreadsheet tools office 2001 for macintosh the missing manual is coauthored by a dream team of missing manual alumni david reynolds executive editor of macaddict magazine and coauthor of appleworks 6 the missing

manual and nan barber whose efforts as the copy editor of the first four missing manual titles gave her an intuitive feeling for the friendly funny authoritative voice of the series once again the authors are joined by series founder david pogue who has closely edited the book to ensure excellence of depth accuracy and prose

File and Pocket Style Manual

2002-11-01

professional graphics designers will welcome this practical guide to acrobat 5 because it tells why and when to use processes as well as how includes projects tutorials and demonstrations

if the al qaeda terrorists who attacked the united states in 2001 wanted to weaken the west they achieved their mission by striking a blow at the heart of democracy since 9 11 governments including those of the usa the uk france and australia have introduced tough intimidating legislation to discourage the legitimate activities of a probing press so greatly needed after the iraq war proved that executive government could not be trusted often hiding behind arguments about defending national security and fighting the war on terror governments criminalised legitimate

journalistic work ramping up their attacks on journalists sources and the whistle blowers who are so essential in keeping governments honest through detailed research and analysis this book which includes interviews with leading figures in the field including edward snowden explains how mass surveillance and anti terror laws are of questionable value in defeating terrorism but have had a chilling effect on one of the foundations of democracy revelatory journalism

PHP Programming for Windows

2002
