John A. Van de Walle

Teaching Kids to Care & Cooperate Kathy Pike, Jean Mumper, Alice Fiske, 2000 J.L. Gili's selection of Lorca's poems in Spanish, with his own unassuming prose versions as guides to the originals, first appeared in 1960. With its excellent introduction and selection it remains a perfect introductory guide to the great poet. The book is ideal for newcomers to Lorca who know, or are prepared to grapple with, a little Spanish. It influenced a generation of readers and poets, including Ted Hughes who first encountered Lorca through this book. Spain's most celebrated modern poet, Federico García Lorca was born in 1898 near Granada. Poet, dramatist, musician and artist, he was the author of 'The Gypsy Ballad Book' (1928) and 'Poet in New York' (1940). After his return from New York and Cuba to Republican Spain in 1930, he devoted himself to the theatre, writing three tragedies including 'Blood Wedding' (1933). An outspoken supporter of the Republic, he was assassinated at the height of his fame by Nationalist partisans in Granada in 1936, on the eve of the Spanish Civil War.

The Mislabeled Child Brock Eide, Fernet Eide, 2006-08-01 An incredibly reassuring approach by two physicians who specialize in helping children overcome their difficulties in learning and succeeding in school For parents, teachers, and other professionals seeking practical guidance about ways to help children with learning problems, this book provides a comprehensive look at learning differences ranging from dyslexia to dysgraphia, to attention problems, to giftedness. In *The Mislabeled Child*, the authors describe how a proper understanding of a child's unique brain-based strengths can be used to overcome many different obstacles to learning. They show how children are often mislabeled with diagnoses that are too broad (ADHD, for instance) or are simply inaccurate. They also explain why medications are often not the best ways to help children who are struggling to learn. The authors guide readers through the morass of commonly used labels and treatments, offering specific suggestions that can be used to help children at school and at home. This book offers extremely empowering information for parents and professionals alike. *The Mislabeled Child* examines a full spectrum of learning disorders, from dyslexia to giftedness, clarifying the diagnoses and providing resources to help. The Eides explain how a learning disability encompasses more than a behavioral problem; it is also a brain dysfunction that should be treated differently.

Problem-solving Kids Susan Anderson Miller,2000 This unique series tackles behavioral issues in typical Totline fashion -- practical, easy-to-use ideas that really work. Each book presents activities to empower young children with self-esteem and basic social skills.This valuable resource is designed to show teachers how to help their children learn to solve their own problems.

Logic for Kids Arnold Cusmariu,2023-06-30 Logic for Kids is intended to help parents take charge of the intellectual development of their children in a critical area: the acquisition of skills related to logical reasoning. Many other books, including math and science books, fail to treat logic as a subject in its own right, provide no special instruction, and expect students to figure out logic on their own. Without the corrective measures explained in this book, students will be ill-prepared to cope with increasing intellectual demands as they progress from grade to grade. These demands will become greater and more varied in college and once they embark on a professional career. Getting started in logic at the earliest opportunity is the answer.

Practice with Purpose Debbie Diller,2023-10-10 In her 30 years as an educator, Debbie Diller has closely examined classroom practice, asking Why? What's the purpose? Watching primary students work successfully at literacy work stations, she wondered with teachers, Why don't we have upper-grade students doing this? Could we kick it up a notch? In her new book, Debbie shows teachers of grades three-to-six how to structure their classrooms so that all students can be successful doing meaningful independent work using literacy work stations. Practice with Purpose offers guidance on establishing routines for independent reading and response writing, as well as step-by-step instructions on how to set up and manage a variety of hands-on literacy work stations appropriate for intermediate students. Each chapter includes: how to introduce the station;innovative ways to use materials;what to model to guarantee independence;how to troubleshoot; assessment and accountability ideas; how the station supports student achievement on state tests; reflection questions for professional development. The extensive appendix includes time-saving tools such as management board icons, graphic organizers, task cards, and recommended Web sites and children's literature.

50 Risks to Take With Your Kids Daisy Turnbull, 2021-02-17 50 Risks to Take With Your Kids is a guide for parents and carers to nurture resilience and independence in kids as they learn to take their own risks. For anyone who wants to combat helicopter parenting and a bubble-wrapped generation, Daisy Turnbull offers an easy-to-use framework with simple, practical challenges for children aged up to 10 years old. In 50 Risks to Take With Your Kids, you'll find risks that build physical skills, social confidence and character development before kids enter those 'risky' teenage years. You'll also find some all-important parenting risks that will encourage you to step outside your comfort zone and think a little differently about raising children. It may sound counterintuitive to say that the more opportunities you give children to test boundaries, the better they will 'adult', but it's true. The more they are allowed to play in the mud, create games and find their own solutions to problems, the more they will thrive later in life. Peppered with Daisy's own experiences in teaching, wellbeing and parenting, this warm and funny book is not about developmental KPIs, and it's certainly not about judgement. It's about teaching kids to recognise and assess risks themselves, and readying them to take on life and all that it brings. And it's about having fun and connecting as a family along the way.

Parenting Brett Ullman, 2020-07-31 After more than two decades and over two thousand presentations, my interactions with parents reveal that although most want to learn and parent their best, they feel ill-equipped. Kids don't come with manuals. The goal of this book is to equip and empower you as a parent, grandparent, or youth leader to help kids navigate all aspects of life in the current culture. How do we sift through the unending philosophies on parenting and be intentional in how we choose what's best for our family? The number of voices is overwhelming. This book distills the essential elements of parenting so you can apply them in your own home. It approaches parenting from a Christian perspective and is filled with practical advice that is applicable to everyone. As we explore the foundations of parenting, we will look at: Parenting. What are the stages of parenting? What is the current state of parenting? What is the purpose of parenting? Parenting styles. What are they and which ones should I be using? What might I need to alter about my current parenting style? Progression of parenting. What are the skills our children need to learn? Time. What does quality time and being present with my kids look like? Communication. How can I gain better communication skills so that I can more effectively connect with my kids? Discipline. How do I effectively discipline my children? Family discipleship. Why is our worldview important, and how we can raise kids with a Christian worldview? Mental Health. How do we address issues like anxiety, panic attacks, and depression? Engaging the Culture. How do we empower our kids to engage the culture around us without compromising their faith?

Media. How can we help our kids navigate technology? Sexuality. How do we direct our kids towards healthy sexuality? Pornography. What is the prevalence of pornography and how do we address its impact on our kids? Dating. How do we best avoid pitfalls in dating? Finances and education. How can we help our children make sound financial and education choices? Drugs and alcohol. What tools are available to assist in drug-proofing our kids? Loneliness. How do we prevent disconnection in our kids and help them to create community?

Elementary and Middle School Mathematics John A. Van de Walle, 2007 This leading K-8 math methods book has the most coverage of the NCTM standards, the strongest coverage of middle school mathematics, and the highest student approval of any math methods book currently available. *Elementary and Middle School Mathematics* provides an unparalleled depth of ideas and discussion to help readers develop a real understanding of the mathematics they teach. John Van de Walle, one of the foremost experts on how children learn mathematics, finds that 80 percent of the students who purchase this book keep it for reference when they begin their professional teaching careers. This book reflects the NCTM Principles and Standards and the benefits of constructivist-or student-centered-mathematics instruction. Improvements for the sixth edition include sections on planning for a diverse classroom and a completely new section addressing planning in a classroom where there are English language learners.

Disabilities and Disorders in Literature for Youth Alice Crosetto, Rajinder Garcha, Mark Horan, 2009-09-01 One in every five Americans lives with at least one disability or disorder, including both the obvious, such as those requiring the use of a wheelchair, and the less evident ones, such as eating disorders or Asperger's syndrome. Those responsible for teaching disabled students and providing services and support for them need ready access to reliable and up-to-date resources. *Disabilities and Disorders in Literature for Youth: A Selective Annotated Bibliography for K-12* identifies almost 1,000 resources to help educators, professionals, parents, siblings, guardians, and students understand the various disabilities and disorders faced by children today. This bibliography consists of four major headings—Emotional, Learning, Physical, and Multiple Disabilities—which are further categorized into works of fiction and nonfiction. Annotations provide a complete bibliographical description of the entries, and each entry is identified with the grade levels for which it is best suited and resources are matched with appropriate audiences. Reviews from recognized publications are also included wherever possible. Anyone interested in identifying helpful resources regarding disabilities and disorders will find much of value in this essential tool.

Writing for Children and Teens Cynthea Liu, 2008 Nowhere will you find a more comprehensive, current, and detailed writing skills course designed specifically for writing children and teen books, written by a children's and young adult author who is in the field today. *WRITING FOR CHILDREN AND TEENS: A CRASH COURSE* is a ten-step course that relays all the nitty-gritty details of the business, beginning with how to evaluate your book idea all the way to pitching your book to editors

and agents. Within each step, you'll find clear and specific information covering topics such as the children's book market, manuscript format, commonly made mistakes and editing tips to beef up your writing skills, finding the right literary agent or children's book publisher, and professional submission etiquette. This book will even tell you what kind of paper you should use and exactly how you should write your email or letter pitches to editors and agents. Bonus materials include templates for all of your submission needs as well as examples of real-life editorial letters sent to authors from editors today. You will get a complete inside peak to the children's and YA fiction writing market for those who want to write picture books, easy readers, chapter books, and middle grade or young adult/teen novels.

Think Tank Library Paige Jaeger, Mary Boyd Ratzel, 2014-12-04 Transform your library into a think tank by helping teachers create an active learning environment in which students question, investigate, synthesize, conclude, and present information based on Common Core standards. The rigors of today's mandated academic standards can repurpose your library's role as a steward of the Common Core State Standards (CCSS) at your school. This guide will help you help teachers present exciting, field-tested lessons for elementary grades K through 5, addressing developmental steps and individual differences in key competencies in the CCSS. Authors and educators Mary Ratzel and Paige Jaeger illustrate how brain-based learning helps students become deep, critical thinkers and provide the lesson plans to coax the best thinking out of each child. This tool book presents strategies to help learners progress from novice to expert thinker; challenge younger students with questions that lead to inquiry; incorporate rigor into lessons; and use model lesson plans to change instruction. Beginning chapters introduce the basics of instruction and provide ideas for expert cognitive growth of the brain. Sample lessons are aligned with key curriculum areas, including science, social studies, music, art, and physical education.

The 50/50 Solution Emma Johnson, 2024-03-26 There is one proven method for happier kids, more involved dads, and less stressed-out moms after divorce—50/50 custody It's hard for everyone when parents split up—but the end of living together doesn't need to mean the end of a functional family. Part of the reason divorces are so traumatic for the kids involved is because of our child custody system, which truly sets everyone up for failure. Throughout the country, the default arrangement is for Mom to get majority time with the kids (and most of the responsibility of caring for them), for Dad to become an occasional visitor (and perhaps saddled with massive child support payments), and for the kids to lose the stability, structure and confidence of knowing they have two equally committed, loving parents. But it doesn't have to be this way! In *The 50/50 Solution*, creator of the Wealthy Single Mommy community Emma Johnson showcases the robust research proving that, in the vast majority of cases, equal timesharing is the best outcome for everyone in a family where the adults no longer live together. *The 50/50 Solution* will show you that equal parenting time leads to: Better physical, emotional, and mental health for children of divorce Higher career earnings for single mothers Fathers who are more engaged and whose rights as parents are preserved Far less parental and legal conflict A progressive, forward-thinking cultural norm that promotes gender and racial equality for all families, regardless of their configuration A few states have already adopted 50/50 custody as the default arrangement, and several more are poised to follow. Equal parenting time is the custody framework of the future, and *The 50/50 Solution* shows readers how it helps our families and communities thrive.
