By Marcus 1806 this seven volume set lncs 14054 14060 constitutes the proceedings of the 25th international conference hci international 2023 in copenhagen denmark in july 2023 for the hccii 2023 proceedings a total of 1578 papers and 396 posters was carefully reviewed and selected from 7472 submissions additionally 267 papers and 133 posters are included in the volumes of the proceedings published after the conference as late breaking work these papers were organized in the following topical sections hci design and user experience cognitive engineering and augmented cognition cultural issues in design technologies for the aging population accessibility and design for all designing for health and wellbeing information design visualization decision making and collaboration social media creative industries and cultural digital experiences digital human modeling ergonomics and safety hci in automated vehicles and intelligent transportation sustainable green smart cities and smart industry extended reality interactions gaming and gamification experiences interacting with artificial intelligence security privacy trust and ethics learning technologies and learning experiences ecommerce digital marketing and efinance

Java Concepts 2017-05-01 this book constitutes late breaking papers from the 22nd international conference on human computer

interaction hci 2020 which was held in july 2020 the conference was planned to take place in copenhagen denmark but had to change to a virtual conference mode due to the covid 19 pandemic from a total of 6326 submissions a total of 1439 papers and 238 posters have been accepted for publication in the hci 2020 proceedings before the conference took place in addition a total of 333 papers and 144 posters are included in the volumes of the proceedings published after the conference as late breaking work papers and posters these contributions address the latest research and development efforts in the field and highlight the human aspects of design and use of computing systems

Big Java 2017-05-01 the oxford handbook of late antiquity offers an innovative overview of a period c 300 700 ce that has become increasingly central to scholarly debates over the history of western and middle eastern civilizations this volume covers such pivotal events as the fall of rome the rise of christianity the origins of islam and the early formation of byzantium and the european middle ages these events are set in the context of widespread literary artistic cultural and religious change during the period the geographical scope of this handbook is unparalleled among comparable surveys of late antiquity arabia egypt central asia and the balkans all receive dedicated treatments while the scope extends to the western kingdoms and north africa in the west furthermore from economic theory and slavery to greek and latin poetry syriac and coptic literature sites of religious devotion and many others this handbook covers a wide range of topics that will appeal to scholars from a diverse array of disciplines the oxford handbook of late antiquity engages the perennially valuable questions about the end of the ancient world and the beginning of the medieval while providing a much needed touchstone for the study of late antiquity itself

The Argument Set Forth in a Late Book [by Matthew Tindal], Entitled, Christianity as Old as the Creation, Reviewed and Confuted 1731

although the topic of humour has been dealt with for other eras early medieval humour remains largely neglected these essays go some way towards filling the gap examining how early medieval writers deliberately employed humour to make their cases the essays range from the late roman empire through to the tenth century and from byzantium to anglo saxon england the subject matter is diverse but a number of themes link them together notably the use of irony ridicule and satire as political tools two chapters serve as an extended introduction to the topic while the following six chapters offer varied treatments of humour and politics looking at different times and places but at the carolingian world in particular together they raise important and original issues about how humour was employed to articulate concepts of political power perceptions of kingship social relations and the role of particular texts

Report of the Joint Select Committee to Inquire Into the Condition of Affairs in the Late Insurrectionary States: Testimony taken by the Joint Select Committee to inquire into the condition of affairs in the late insurrectionary states: South Carolina (June 6-July 27, 1871) 1872

we live in an aging world illnesses that are prevalent and cause significant morbidity and mortality in older people will consume an increasing share of health care resources one such illness is depression this illness has a particularly devastating impact in the elderly because it is often undiagnosed or inadequately treated depression not only has a profound impact on quality of life but it is associated with an increased risk of mortality from suicide and vascular disease in fact for every medical illness studied e g heart disease diabetes cancer individuals who are depressed have a worse prognosis research has illuminated the physiological and behavioral effects of depression that accounts for these poor outcomes the deleterious relationship between depression and other illnesses has changed the concept of late life depression from a psychiatric disorder that is diagnosed and treated by a psychiatrist to a common and serious disorder that is the responsibility of all physicians who care for patients over the age of 60 this is the first volume devoted to the epidemiology phenomenology psychobiology treatment and consequences of late life depression although much has been written about depressive disorders the focus has been primarily on the illness as experienced in younger adults the effects of aging on the brain the physiological and behavioral

consequences of recurrent depression and the impact of other diseases common in the elderly make late life depression a distinct entity there is a compelling need for a separate research program specialized treatments and a book dedicated to this disorder this book will be invaluable to psychiatrists gerontologists clinical psychologists social workers students trainees and others who care for individuals over the age of sixty

The History of the Most Renowned and Victorious Princess Elizabeth, Late Queen of England 1675 this book focuses on the earliest surviving christian icons dated to the sixth and seventh centuries which bear many resemblances to three other well established genres of sacred portrait also produced during late antiquity namely roman imperial portraiture graeco egyptian funerary portraiture and panel paintings depicting non christian deities andrew paterson addresses two fundamental questions about devotional portraiture both christian and non christian in the late antique period firstly how did artists visualise and construct these images of divine or sanctified figures and secondly how did their intended viewers look at respond to and even interact with these images paterson argues that a key factor of many of these portrait images is the emphasis given to the depicted gaze which invites an intensified form of personal encounter with the portrait s subject the book will be of interest to scholars working in art history theology religion and classical studies

A Reply to a late Publication of S. Newton, of Norwich, intituled, an appendix, &c. In answer to which it is ... shewn, that the Quakers are not Calvinists; that the Gospel comprehends more than words, or the bare sense of words; and that the spirit of truth is to be experienced and sensibly felt in the ... consciences of men 1774
