Drug Dependence and Alcoholism Arnold J. Schechter,1981-10-01 Determination and treatment of the unique needs of each addicted individual is a prerequisite to rehabilitation. General descriptions of large subgroups of the addicted population may only serve to identify issues pertinent to treatment and global treatment needs. However, specification of services needed is a first step in incorporating these in treatment. Clearly, women in treatment need many services which, currently, are not typically available and may be critical for successful treatment of many of these women. REFERENCES Anderson, M. 1977.
