as america s most dysfunctional big city detroit faces urban decay population losses fractured neighborhoods with impoverished households an uneducated unskilled workforce too few jobs a shrinking tax base budgetary shortfalls and inadequate public schools looking to the city s future lewis d solomon focuses on pathways to revitalizing detroit while offering a cautiously optimistic viewpoint solomon urges an economic development strategy one anchored in detroit balancing its municipal and public school district s budgets improving the academic performance of its public schools rebuilding its tax base and looking to the private sector to create jobs he advocates an overlapping tripartite political economy one that builds on the foundation of an appropriately sized public sector and a for profit private sector with the latter fueling economic growth although he acknowledges that detroit faces a long road to implementation solomon sketches a vision of a revitalized economic sector based on two key assets vacant land and an unskilled labor force the book is divided into four distinct parts the first provides background and context with a brief overview of the city s numerous challenges the second examines detroit s immediate efforts to overcome its fiscal crisis it proposes ways detroit can be put on the path to financial stability and sustainability the third considers how detroit can implement a new approach to job creation one focused on the for profit private sector not the public sector in the fourth and final part solomon argues that residents should pursue a strategy based on the actions of individuals and community groups rather than looking to large scale projects

The Metropolitan Revolution

2013

argues that the new american economy must be driven by exports and powered by cleaner energy and indicate that metropolitan areas should lead the way in this new economic landscape

Urban Revitalization

2015-12-22

following decades of neglect and decline many us cities have undergone a dramatic renaissance from new york to nashville and pittsburgh to portland governments have implemented innovative redevelopment strategies to adapt to a globally integrated post industrial economy and cope with declining industries tax bases and populations however despite the prominence of new amenities in revitalized neighborhoods spectacular architectural icons and pedestrian friendly entertainment districts the urban comeback has been highly uneven even

thriving cities are defined by a bifurcated population of creative class professionals and a low wage low skilled workforce many are home to diverse and thriving immigrant communities but also contain economically and socially segregated neighborhoods they have transformed high profile central city brownfields but many disadvantaged neighborhoods continue to grapple with abandoned and environmentally contaminated sites as urban cores boom inner ring suburban areas increasingly face mounting problems while other shrinking cities continue to wrestle with long term decline the great recession brought additional challenges to planning and development professionals and community organizations alike as they work to maintain successes and respond to new problems it is crucial that students of urban revitalization recognize these challenges their impacts on different populations and the implications for crafting effective and equitable revitalization policy urban revitalization remaking cities in a changing world will be a guide in this learning process this textbook will be the first to comprehensively and critically synthesize the successful approaches and pressing challenges involved in urban revitalization the book is divided into five sections in the introductory section we set the stage by providing a conceptual framework to understand urban revitalization that links a political economy perspective with an appreciation of socio cultural factors in explaining urban change stemming from this we will explain the significance of revitalization and present a summary of the key debates issues and conflicts surrounding revitalization efforts section ii will examine the historical causes for decline in central city and inner ring suburban areas and shrinking cities and building from the conceptual framework discuss theory useful to explain the factors that shape contemporary revitalization initiatives and outcomes section iii will introduce students to the analytical techniques and key data sources for urban revitalization planning section iv will provide an in depth critical discussion of contemporary urban revitalization policies strategies and projects this section will offer a rich set of case studies that contextualize key themes and strategic areas across a range of contexts including the urban core central city neighborhoods suburban areas and shrinking cities lastly section v concludes by reflecting on the current state of urban revitalization planning and the emerging challenges the field must face in the future urban revitalization will integrate academic and policy research with professional knowledge and techniques its key strength will be the combination of a critical examination of best practices and innovative approaches with an overview of the methods used to understand local situations and urban revitalization processes a unique feature will be chapter specific case studies of contemporary urban revitalization projects and questions geared toward generating classroom discussion around key issues the book will be written in an accessible style and thoughtfully organized to provide graduate and upper level undergraduate students with a comprehensive resource that will also serve as a reference guide for professionals

Disadvantaged Business Enterprise (DBE) List

Knowledge retention is a critical challenge for organizations worldwide as baby boomers approach retirement age and the work patterns of younger workers constantly change. Many organizations are experiencing a far-reaching knowledge bleed, therefore it is imperative that organizations find ways to best leverage and retain that vital knowledge before workers leave the organization and attrition occurs. Answers to the call of businesses worldwide in light of global workforce changes, many organizations are faced with a dilemma: how to maintain the right set of people at the right time in order to meet the company's long-term goals and vision. Knowledge retention strategies and solutions supplies the answer in the form of strategic human capital management. Written by one of the most sought-after knowledge management experts, this easy-to-read, concise guide helps companies adopt proven retention strategies and techniques to capture and share knowledge which is otherwise at risk of being lost in transition. The text also discusses key case studies by leading organizations applying knowledge retention strategies, build institutional memory and social networks, addresses these important questions: how do you know what knowledge is important to capture? what is the best approach to developing a knowledge retention framework? how do you calculate the loss of knowledge? what are the appropriate steps once the damage is assessed? how do you identify knowledge flows and gaps in an organization? since you never know when someone will retire or move on, the book emphasizes the importance of minimizing business disruption and accelerating competency development. Operating around four key framework pillars: competency, performance, knowledge, and change management, this text demonstrates why a knowledge retention strategy should be woven into an organization's fabric from day one.

this book comprehensively reviews searchable encryption which represents a series of research developments that directly enable search functionality over encrypted data the book majorly covers 1 the design and implementation of encrypted search algorithms data structures and systems that facilitate various forms of search over always encrypted databases 2 different threat models assumptions and the related security guarantees when using searchable encryption in the real world settings and 3 latest efforts in building full fledged encrypted database systems that draw insights from searchable

encryption constructions the book fits in the timely context where the necessity of safeguarding important and sensitive data has been globally recognized traditional security measures such as storing data behind network firewalls and layers of access control mechanisms to keep attackers out are no longer sufficient to cope with the expanding landscape of surging cyber threats there is an urgent call to keep sensitive data always encrypted to protect the data at rest in transit and in use doing so guarantees data confidentiality for owners even if the data is out of their hands e g hosted at in the cloud databases the daunting challenge is how to perform computation over encrypted data as we unfold in this book searchable encryption as a specific line of research in this broadly defined area has received tremendous advancements over the past decades this book is majorly oriented toward senior undergraduates graduate students and researchers who want to work in the field and need extensive coverage of encrypted database research it also targets security practitioners who want to make well informed deployment choices of the latest advancements in searchable encryption for their targeted applications hopefully this book will be beneficial in both regards

National Minority and Women-owned Business Directory 2007

2008-08-14

in this thematic issue of the journal of entrepreneurship management and innovation entitled qualitative research in economics and management sciences the authors used many quantitative methods and research models e g sem pls sem or probit models table 1 each of these approaches is characterized by methodological rigor and an assessment of the reliability and validity of the research instruments used pini and tchorek 2022 analyze the determinants of exports in two european culturally related countries such as italy and poland using an econometric and probit model which implies a normal distribution of errors and is adapted to binary responses excluding size and age variables the authors investigate the influence of many independent variables size age management by family members or external managers on the dependent variable export controlling the research model by product and process innovation location in a less developed region operations in a high medium high technology intensive sector or cooperation with many banks the results confirm the authors initial assumptions that the size of companies influences the exports of the surveyed countries the age of companies exporting their goods is more important in italy than in poland where no such impact has been recorded in addition management by an external manager increases the likelihood of exports for younger family businesses in italy and smaller family businesses in poland the authors also showed that product innovation is the engine of exports in italy and poland and geographic location affects the likelihood of exports in italy but not in poland in other studies paulino 2022 presents the growing business analytics and business intelligence in the philippines their impact on organizational performance and marketing financial and business process

performance indicators retail companies were selected for the study focusing on advanced data management used in business operations the author mainly used the well known pls sem model and his research instrument was assessed in terms of content validity construct validity and reliability the results of the measurement and structural model evaluation were also subject to verification the results indicate the impact of business analytics capabilities including the ability of the decision support system dss business process improvement bpm data dashboard dd and financial analysis fa on the business intelligence level in addition it has been empirically verified that organizational performance influences marketing financial and business process performance overall business intelligence is an essential predictor of a retail company s organizational performance the assumption that the level of readiness to implement business analytics can be treated as a moderating factor between business analytics and organizational performance has not been confirmed the next article by klimontowicz and majewska 2022 presents the positive impact of intellectual capital ic especially its three components such as process capital human capital and relational capital on the competitiveness of banks and market efficiency the authors used the following methods and tools principal axis factor analysis pls sem papi and cawi as a result of their application they emphasize that in contrast to previous research the process capital dominates the bank s potential to create a competitive advantage not human capital proving the vital role of technology and innovation they found that competitive performance moderates the relationship between ic and market efficiency the environment positively moderates the relationship between ic and competitor performance as well as the relationship between competitor performance and market efficiency the size of the bank and the length of its market activity affect the market efficiency measured by the average rate of changes in roa and roe the study expands the existing evidence mainly from well developed countries on the intellectual capital of polish banks emphasizing the process capital to a much greater extent as a modern and so far little exposed component of ic in other research the last two articles refer to human resource management hassan s study 2022 explores the impact of human resource management hrm practices on employee retention in addition he moderates the role of performance evaluation training and development in the relationship between hrm practices and employee retention using sem and questionnaires validated by other researchers the author proves the originality of research in the retail sector in the maldives on improving employee retention a complementary approach to the impact of rewards and compensations training and employee development as well as assessing their results in human capital management recommending practical solutions for the sector retail maldives in another study on workers adaptive performance tan and antonio 2022 using pls sem prove that the new form of remote work and the so called e leadership forced by the covid 19 pandemic have changed the way employers and employees interact organizational commitment teleworking and a sense of purpose affect the adaptive performance of employees directly while the perception of e leadership indirectly it is also one of the first studies to capture intrinsic motivation as the antecedent of employee adaptive performance along with perceived e leadership and teleworking results
