The Establishment Owen Jones, 2014-09-04 THE PHENOMENAL BESTSELLER 'Fantastic, timely, eye-opening' Armando Iannucci, New Statesman, Books of the Year 'Captures a collective sense of anger and awakening' Matt Haig, Observer, Books of the Year Behind our democracy lurks a powerful but unaccountable network of people who wield massive power and reap huge profits in the process. In exposing this shadowy and complex system that dominates our lives, Owen Jones sets out on a journey into the heart of our Establishment, from the lobbies of Westminster to the newsrooms, boardrooms and trading rooms of Fleet Street and the City. Exposing the revolving doors that link these worlds, and the vested interests that bind them together, Jones shows how, in claiming to work on our behalf, the people at the top are doing precisely the opposite. In fact, they represent the biggest threat to our democracy today - and it is time they were challenged. 'A book of revelations ... The Establishment have stitched it up - stitched you up - and they know it' Danny Dorling, Times Higher Education Supplement 'A dissection of the profoundly and sickeningly corrupt state that is present-day Britain. He is a fine writer, and this is a truly necessary book' Philip Pullman 'Owen Jones is a phenomenon of our times' David Kynaston, The Times Literary Supplement 'You will be enlightened and angry' Irvine Welsh

The Rage Julia Ebner, 2017-09-30 The early twenty-first century has been defined by a rise in Islamist radicalisation and a concurrent rise in far right extremism. This book explores the interaction between the 'new' far right and Islamist extremists and considers the consequences for the global terror threat. Julia Ebner argues that far right and Islamist extremist narratives - 'The West is at war with Islam' and 'Muslims are at war with the West' - complement each other perfectly, making the two extremes rhetorical allies and building a spiralling torrent of hatred - 'The Rage'. By looking at extremist movements both online and offline, she shows how far right and Islamist extremists have succeeded in penetrating each other's echo chambers as a result of their mutually useful messages. Based on first-hand interviews, this book introduces readers to the world of reciprocal radicalisation and the hotbeds of extremism that have developed - with potentially disastrous consequences - in the UK, Europe and the US.

British librarianship and information work 2011-2015 J. H. Bowman, 2017-01-24 This is the latest in an important

series of reviews going back to 1928. The book contains 28 chapters, written by experts in their field, and reviews developments in the principal aspects of British librarianship and information work in the years 2011-2015.

The Crisis of Colonial Anglicanism Martyn Percy, 2025-01-16 This book offers a fresh, bold and unsettling truth: the British Empire and Great Britain are primarily English constructions; and the Church of England has presumed to act for and benefit from English enterprise and exploitation, serving as the spiritual arm of the imperial project. English Anglicanism has developed itself as the lead character within its own 'serious fiction'—the main religious player in a drama of Church and Empire. Yet, in collusion with colonialism, it is now a prisoner of its own historical amnesia. Martyn Percy examines the English interests concealed in appeals to Britishness, and shows how slavery, exploitation, classism and racism played their part in the elitist and hierarchical worldviews propagated by the English to bolster both Empire and Church. Yet, by regarding the rest of the world as lesser, both institutions have slowly degenerated in global standing. Now, 'Britain' and the Church of England are no more than minor national players on the world stage. Religious, social and political imperialism are founded on the deprecation of others. Yet those peoples who were once looked down upon have fought for equality and independence. Today, the worldwide Anglican Communion faces a new era of moral reckoning.

Creating Freedom Raoul Martinez, 2016-09-29 We are far less free than we like to think. In *Creating Freedom*, Raoul Martinez exposes the mechanisms of control that pervade our lives and the myths on which they depend. Exploring the lottery of our birth, the coercive influence of concentrated wealth, and the consent-manufacturing realities of undemocratic power, he shows that our faith in free media, free markets, free elections and free will is dangerously misplaced. Written with empathy and imagination, this scholarly, fierce and profoundly hopeful manifesto makes a dazzling case for creating freedom on our own terms.

The Language of Inequality in the News Michael Toolan, 2018-12-06 Explores how UK wealth inequality is discussed in newspapers, with a particular focus on changes over the past forty-five years.

The Lure of Greatness Anthony Barnett, 2017-08-24 In 2016 two surprising explosions of popular contempt for the existing order drove Britain into Brexit and paved the way for Trump's presidency of the United States. On both sides of the Atlantic, proud regimes with global pretensions were levelled by justifiable revolts. But in the name of self-government, Brexit and Trump will intensify the authoritarian traditions of their outdated political systems. *The Lure of Greatness* is a blistering account of how and why this happened. The shadow of Iraq, the great financial crash, campaigns of poison and intrigue, the filleting of David Cameron with the cold fury of a Remain voter... these are just the start. At the book's heart is the story of the institutional and constitutional implosion of the United Kingdom, the farce of 'the sovereignty of parliament', a passionate account of English nationalism and the absurdity of the ever-increasing and insidious influence of the Daily Mail. What emerges is a compelling summary of an EU in crisis, the fateful absence of a viable left alternative, the normality of

immigration – all of which frame the reasons for the triumph of Leave. Anthony Barnett, co-founder of openDemocracy, applies a lifetime of observing, reporting and sedition in this searing analysis of the two great democratic disasters of our time.

The Putin Paradox Richard Sakwa, 2020-02-06 Vladimir Putin has emerged as one of the key leaders of the twenty-first century. However, he is also recognized as one of the most divisive. Abroad, his assertion of Russia's interests and critique of the western-dominated international system has brought him into conflict with Atlantic powers. Within Russia, he has balanced various factions within the elite intelligentsia alongside the wider support of Russian society. So what is the 'Putin paradox?' Richard Sakwa grapples with Putin's personal and political development on both the international political scene and within the domestic political landscape of Russia. This study historicizes the Putin paradox, through theoretical, historical and political analysis and in light of wider developments in Russian society. Richard Sakwa presents the Putin paradox as a unique regime type - balancing numerous contradictions - in order to adapt to its material environment while maintaining sufficient authority with which to shape it.

Constructing Realities Stuart Cartland, 2023-12-04 Considering recent developments and ongoing processes such as globalisation, immigration and multiculturalism, this book critically examines contemporary theoretical narratives around English national identity as mediated by place and experience.

Women Can't Paint Helen Gørrill, 2020-02-06 In 2013 Georg Baselitz declared that 'women don't paint very well'. Whilst shocking, his comments reveal what Helen Gørrill argues is prolific discrimination in the artworld. In a groundbreaking study of gender and value, Gørrill proves that there are few aesthetic differences in men and women's painting, but that men's art is valued at up to 80 per cent more than women's. Indeed, the power of masculinity is such that when men sign their work it goes up in value, yet when women sign their work it goes down. Museums, the author attests, are also complicit in this vicious cycle as they collect tokenist female artwork which impinges upon its artists' market value. An essential text for students and teachers, Gørrill's book is provocative and challenges existing methodologies whilst introducing shocking evidence. She proves how the price of being a woman impacts upon all forms of artistic currency, be it social, cultural or economic and in the vanguard of the 'Me Too' movement calls for the artworld to take action.

Civic Capitalism Colin Hay, Anthony Payne, 2015-04-17 As we struggle with the legacy of the crisis and with the prospect of accelerating environmental degradation, it is time to ask not what we can do for capitalism but what capitalism can do for us, as citizens of a democratic society. In *Civic Capitalism*, Colin Hay and Anthony Payne build on their influential analysis of the crisis of the Anglo-liberal growth model to set out a coherent account of the steps required to build an alternative that is more sustainable socially, economically and environmentally. They argue that it is time to move on from the Anglo-liberal model of capitalism whose failings were so cruelly exposed by the crisis. They outline a new model that will work better in

advanced capitalist societies, showing how this might be achieved in Britain today. They call this civic capitalism the governance of the market, by the state, in the name of the people, to deliver collective public goods, equity and social justice. This reverses the long ascendant logic of Anglo-liberalism in which citizens have been made to answer to the perceived logics of the capitalism they have been made to serve. The crisis shows us that we can no longer be driven by the perceived imperatives of the old model and by those who have claimed for far too long and, as it turns out, falsely to be able to discern for us the imperatives of the market. It is now time to ask what capitalism can do for us and not what we can do for capitalism.

Why Capitalists Need Communists Charles Seaford,2019-02-14 Britain faces huge challenges: inequality, public services under constant pressure, climate change - and in the long term, the impacts of automation and artificial intelligence. At the same time, the political and economic elite seem to have reached an impasse: there is a sense that things can only get worse. In *Why Capitalists Need Communists*, Charles Seaford demonstrates that this need not be, that radical, progressive change is perfectly possible and that the polarisation and nostalgia afflicting us is not inevitable. History shows that it is precisely when the ruling elite loses confidence - which it has - that significant change happens and that new alliances are formed to take over. Tackling the challenges will take planning, redistribution, re-fashioned business and finance, and a new ideology - one which confirms that we really can create the conditions for more people to flourish. But this is not a pipe-dream. This book sets out just how this can come about, based on interviews with over 50 business people, politicians, analysts and activists. Everyone with an interest in the future should read it.

Conceptualising Religion and Worldviews for the School Kevin O'Grady,2022-07-14 This timely volume addresses current debates surrounding the transition from the teaching of religious education (RE) to the more holistic subject of Religion and Worldviews (R&W) in England, and posits criteria for best practice among educators in varied settings and in a

broader international context. By examining empirical sources, governmental reports, and in particular the 2018 final report from the Commission on Religious Education (CORE), the volume suggests key principles needed to guide the transition and ensure that R&W is effectively integrated into curricula, pedagogy, and teaching resources to meet the needs of all student groups. By effectively conceptualising R&W, the volume gives particular attention to the intersections of the subject with democratic citizenship education, intercultural competence, and religious literacy. This text will benefit researchers, academics, and educators with an interest in religious education and teacher education as well as the philosophy and sociology of education more broadly. Those interested in education policy and politics, as well as citizenship and schooling in the UK, will also benefit from this volume.

Capitalism for All Neil E. Harrison, John Mikler, 2022-01-01 Capitalism has lost its glamor. In just three decades since it defeated a totalitarian Soviet Union, capitalism is today blamed for slowing growth, a dangerously changing climate, inequality, social misery, and a rise in nationalist populism. How did capitalism fall so far from grace? *Capitalism for All* show how, quite simply, the governments of the world's wealthiest countries have forgotten capitalism's initial purpose. It was born out of a liberal philosophy that values the competition of ideas and goods in the service of social progress while respecting the individual and preventing excessive power. Yet, with the aid of governments, giant corporations, or MegaCorps, have usurped power, dominated markets, and reduced competition. The result is not liberal capitalism but what Neil E. Harrison and John Mikler term *CorpoCapitalism*, which results in an unhappy populace seeking radical political change while challenges like climate change continue to race forward largely unchecked. *Capitalism for All* explores how *CorpoCapitalism* came to be, argues that it is not inevitable, and explains how governments can wrest back power and create a capitalism for all.

People's Republic of Neverland Robb Johnson, 2020-10-01 There once was a time when teachers and communities were able to exercise democratic control over their schools. Now that power has been taken away, both centralised and privatised, under the guise of "reform." There is a forgotten history of the time before reform, and within it a bright horizon is visible, reachable only if educators and society at large can learn the lessons of the past. Robb Johnson entered the classroom as a new teacher in the 1980s and has spent a lifetime alongside his pupils encouraging both creativity and a healthy distrust of authority. This book is both memoir and polemic, a celebration of children's innate desire to learn, share, cooperate, and play, as well as a critique of bureaucratic interference. Johnson details how we ended up with the contemporary mass education systems and why they continually fail to give children what they need. Combining practical experience as a teacher with detailed pedagogical knowledge, and a characteristic playful style, Johnson is both court chronicler and jester, imparting information and creatively admonishing the self-important figureheads of the reform agenda. This book considers how schools and education relate to the wider society in which they are located and how they relate to

the particular needs and abilities of the people who experience them. It shows that schools and education are contested spaces that need to be reclaimed from the state, and turned into places where people can grow, not up, not old, but as individuals. It offers alternative ways of running classrooms, schools, and perhaps even society.

Labour Under Corbyn Prapimphan Chiengkul, 2020-11-27 This book provides an accessible yet critical analysis of the Labour Party under the leadership of Jeremy Corbyn (2015-2020) in the context of the contemporary British political economy. It analyses structural constraints on left-wing politics and evaluates the transformative potential of Labour's economic and social policies under Corbyn. Drawing from a neo-Marxist and neo-Gramscian framework, the book argues that the material, institutional and ideological conditions before 2015 opened political space for a left-wing Labour Party, although the dominant historical structures severely limited its chance of coming to power. In addition, the book argues that Labour under Corbyn should not be dismissed as 'populist', and that its policies aimed to redress structural economic problems, promote economic democracy and tackle contemporary challenges. The book also highlights the importance of adopting a long-term approach to counter-hegemonic political struggle so as not to shrink the space for progressive politics.

Konvivialismus. Eine Debatte Frank Adloff, Volker M. Heins, 2015-09-30 Das »Konvivialistische Manifest« (2014 auf Deutsch erschienen) hat die globale Debatte um die Frage neu formatiert, wie wir das Zusammenleben angesichts von Klimakatastrophe und Finanzkrisen gestalten wollen und müssen. Die Beiträge dieses Bandes eröffnen nun die Diskussion um die Möglichkeiten und Grenzen des Manifests im deutschsprachigen Raum: Wo liegen seine Stärken, wo die Schwächen? Was hieße es, eine konviviale Gesellschaft anzustreben - in Politik, Kultur, Zivilgesellschaft und Wirtschaft? Welche neuen Formen des Zusammenlebens sind wünschenswert und welche Chancen bestehen, sie durchzusetzen? Ein Buch nicht nur für Sozial- und Kulturwissenschaftler_innen, sondern auch für zivilgesellschaftliche Akteure und die interessierte Öffentlichkeit. Mit Beiträgen u.a. von Micha Brumlik, Christian Felber, Naika Foroutan, Silke Helfrich, Claus Leggewie, Stephan Lessenich, Steffen Mau, Franz Walter und Gesa Ziemer.

The Persistence of Gender Inequality Mary Evans, 2016-12-20 Despite centuries of campaigning, women still earn less and have less power than men. Equality remains a goal not yet reached. In this incisive account of why this is the case, Mary Evans argues that optimistic narratives of progress and emancipation have served to obscure long-term structural inequalities between women and men, structural inequalities which are not only about gender but also about general social inequality. In widening the lenses on the persistence of gender inequality, Evans shows how in contemporary debates about social inequality gender is often ignored, implicitly side-lining critical aspects of relations between women and men. This engaging short book attempts to join up some of the dots in the ways that we think about both social and gender inequality, and offers a new perspective on a problem that still demands society's full attention.
