Patricia Pearson

Opening Heaven's Door Patricia Pearson, 2015-08-18 A touching, exhilarating, challenging exploration of the inexplicable gleamings of another world many of us experience, in life, in grief, and near death. Sparked by extraordinary experiences that occurred when her father and her sister both died in 2008, Patricia Pearson set off on an investigation into what she calls a curious sort of modern underground--a world beneath the secular world, inhabited by ordinary human beings having extraordinary experiences that they aren't, on the whole, willing to disclose. Roughly half the bereaved population and an unreported number of the dying witness or experience a sensed presence, the mystery of near-death awareness, and, if they are not in horrible pain or medicated into unconsciousness, feelings of transcendence and grace as they depart on the journey from which none of us return. Pearson brings us effortlessly into her quest for answers, inspiring us to own up to experiences we may never have shared with anyone. If we let ourselves, all of us wonder deeply about these things, and also about the medical, social and psychological implications of passing through heaven's door.

Opening Heaven's Door Patricia Pearson, 2014 What happens when we die? People have been guessing since humans first began to think. Spirituality and religion provided the answers in the past, but in the age of science we're thrown back into the dark. If science cannot 'prove' there is life - or something - after death, then it doesn't exist. And yet ordinary people continue to experience unexplained phenomena when a friend or family member dies. These are normal people, even sceptics like Patricia Pearson. Prompted by her family's surprising experiences around the deaths of her father and her sister, Pearson set out on an open-minded journey of inquiry as a journalist. She discovered that far more people were having uncanny and transcendent experiences than generally let on: roughly half the bereaved population, plus all those who observe the dying (nurses, hospice workers, soldiers, etc.). With many years of examination into current grief research under her belt, she concludes that we cannot simply deprive people the legitimacy of these experiences until there is more solid evidence that 'we inhabit a purely material and mechanistic universe'. Pearson points to new scientific explanations around how dying is experienced, giving these luminous moments credence and understanding. As she says, 'The dying may finally be able to convey to us what they are feeling, and where they glimpse themselves to be going.' Opening Heaven's Door

recounts deeply affecting stories of messages from the dying and the dead in a fascinating work of investigative journalism, pointing to new scientific explanations that give these luminous moments the importance felt by those who experience them. This riveting and intelligent work will be welcomed by the many thousands of readers of Proof of Heaven and Heaven Is for Real.
