water sanitary and waste services represent a
substantial proportion of the cost of
construction averaging 10 of the capital costs
of building and with continuing costs in
operation and maintenance nevertheless they
are often regarded as a cinderella within the
building process parts of many different codes
and regulations impact on these services
making an overall viewpoint more difficult to
get this new edition of this classic text
draws together material from a variety of
sources to provide the comprehensive coverage
not available elsewhere it is a resource for
the sound design operation and maintenance of
these services and should be on the bookshelf
of every building services engineer and
architect
