Promoting Self-Management of Chronic Health Conditions Erin Martz,2017-07-18 It is common for a doctor or healthcare professional to see an individual with a chronic health condition only a few times a year for a brief office appointment. Yet, the individual has to live with the health condition 24 hours a day, 7 days a week. So, who really is in charge of managing the health condition? The individual has to micro-manage their condition, while healthcare professionals can provide advice on treatment approaches or the macro-management of the chronic health condition. *Promoting Self-Management of Chronic Health Conditions* covers a range of topics related to self-management-theories and practice, interventions that have been scientifically tested, and information that individuals with specific conditions should know (or be taught by healthcare professionals). Data suggest that currently a majority of individuals in the U.S. has a chronic health condition, and as society ages and healthcare continues to improve individuals' life-spans, more people will experience a chronic health condition. Health systems need to shift from an acute care model of treatment to a chronic care treatment model, in view of this trend.

The expanding need for the development and scientific analysis of formal self-management programs accompany this increase in chronic health conditions. This book serves the critical purpose of helping to increase understanding of self-management and how healthcare providers can empower individuals with chronic health conditions to self-manage.

How Corporations Hurt Us All Dan Butts,2003 The recent accounting and corporate scandals of Enron, WorldCom, Tyco, K-Mart and McWane (producer of cast iron water and sewer pipes), which has killed 9 workers and injured 4600 more with impunity since 1995- and other greedy and lawless billion dollar behemoths- are just the tip of the iceberg relative to the serious and pervasive harm that corporations and greed are doing to people, communities, the earth and to our children's and grandchildren's future. **How Corporations Hurt Us All** examines many crises including how Big Oil, billion dollar weapons contractors, and unaccountable private firms like DynCorps are continuing dangerous and immoral Cold War policies by driving multiple wars and military operations; our collapsing corporate health care system that restricts free speech, stifles public debate, and manipulates public opinion to serve narrow corporate and political goals. Some of the world's largest multinational corporations (ExxonMobil (#1 oil company), Wal-Mart (#1 retailer), HCA (#1 hospital conglomerate), Citigroup (the world's #1 financial institution)- and other rogue operations are profiled in the book. The good news is that there are effective approaches to all of these interrelated, greed-driven crises. Even more hopeful are the corporate reform and global economic democracy movements representing thousands of dedicated citizens' groups and millions of individuals throughout the world. Yet, what is ultimately necessary to reverse global economic, social, and environmental deterioration and eventual collapse, insure world peace and security, strength our weakened civil liberties, and fulfill our human potential, as the book explains, is forging a broad consensus on a new bottom line, or organizing principle, for business and society.
