a soldier s guide to learning the tricks of the trade the original no
 bullshit soldier s handbooks loaded with tips tricks and ideas on how to
 live thrive and stay comfortable in a military outdoor environment through
 field expedient know how from how to take a dump in the woods
 improvise modify or improve military and civilian outdoor gear combat
 survival techniques reducing field boredom leadership tips jokes and
 much more newly revised and updated 2012 edition this is the first of two
 collections that compile all the original 9 volumes into a new complete
 and newly revised edition not your typical boring military field manual
 these volumes contain info that will keep you one step ahead of your
 average soldier rangers lead the way this newly revised edition of the first
 five of nine volumes adds updated equipment info new suppliers now with
 web links and much more as a former us army ranger drill instructor and
 advisor trainer to the bosnia herzegovina army 1996 97 under the us
 state department train equip program i have always enjoyed sharing with
 soldiers my personal experiences tips tricks and ideas in how to survive
 thrive in the outdoors and although i ve been retired from the united
 states army since january 1993 i am still doing what i like best teaching
 training soldiers but not in a class room but through a series of books

called the ranger digests now before i decided to self publish these books
 i use to forward all my tips tricks and ideas to the department of the army
 but the only thing i ever received back were letters saying sorry not
 feasible for military outdoor field conditions well since the army wasn't
 interested in my ideas i then decided to write a book about my tips tricks
 and try to market them to the troops myself after all when it comes to
 common sense and field craft ingenuity the troops know more about this
 stuff than some chair borne colonel or general sitting behind his nice cozy
 desk at the pentagon
